ORIGO

EXCEPTIONAL SOLUTIONS FOR EXTRAORDINARY SPACES

ORIGO

Origo introduces a completely new and unique way of crystal assembling technology. With its copper lampshade and LED light source, it adds warmth and glamour to the interior. Origo provides the possibility of infinite arrangements of various clusters, but can be also used as a single pendant. This skillfully handcrafted lamp is made with the highest quality of crystals.

ORIGO STAR & STAR SET

With the play of symmetry and harmony, Manooi created Origo Star crystal chandelier. It is a majestic lighting creation that completes the space with its elegant and refined design. Handmade, using worldwide unique and innovative crystal assembling technology. This crystal chandelier shows how a traditional skill can be associated with modern means of lighting. Origo Star can be placed individually or in artful configurations to add glamour to the interior.

ORIGO PULSAR

With the play of asymmetry and harmony, Origo Star was further elaborated to create Origo Pulsar – unique and inimitable crystal creation, redefining the idea of a crystal chandelier as it is known. The combination of contemporary materials with the classical view of crystals creates an exclusive look of an interior.
